Allowable Subject Matter

1. Claims 1-18 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art made of record fails to anticipate or make obvious the claimed invention. Specifically, the prior art fails to teach, in combination with the remaining elements:

the method comprising mapping the GUI child to at least one of the cursor linking sectors as recited in claims 1-6 and linking sectors based on the position of the GUI children within the GUI parent wherein the linking sectors provide for linking to the GUI parent and/or the GUI children as recited in claims 7, 11, 12 and 18.

Although Gayraud, HTML and Thompson teach a substantial amount of the claimed matters, Gayraud, HTML and Thompson fail to anticipate or render the above underlined limitations obvious, i.e. hit testing on the component itself in addition to hit testing on the linking area by adding another level of indirection so that in cases of overlapping selection areas, hit testing is performed only once instead of twice as in the traditional method.

Inquires

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Lê Nguyen whose telephone number is **(571) 272-4068**. The examiner can normally be reached on Monday - Friday from 7:00 am to 3:30 pm (EST).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kristine Kincaid, can be reached at (571) 272-4063.
